

■Dispersion related equipment

Equipment	Exterior	Use	Production quantity			Spec.
Three rollers mixing machine		Pigment dispersion for material having high viscosity	For water	15 inch	200kg~500kg	
			For solvent	9 inch	20kg~50kg	
				16 inch	200kg~500kg	
Bead mill		Pigment dispersion for material having low viscosity	For water	15L	100kg~800kg	* Made of special hardened steel
				16.5L	150kg~1000kg	* Made of ceramic
				25L	150kg~1000kg	* Made of ceramic
			For solvent	5L	50kg~400kg	* Made of special hardened steel
				16.5L	150kg~1000kg	* Made of special hardened steel
				25L	150kg~1000kg	* Made of special hardened steel
Bead mill for dispersing pico particles		Pigment dispersion for material having low viscosity	16L		500~1000kg	* Made of ceramic
High speed mixer			For water	15 hp	50kg~1000kg	* Inverter controll
			For solvent	10 hp	50kg~500kg	* Speed switching
				20 hp	50kg~1000kg	* Inverter controll
