

## ■ Resin dissolution related equipment

Equipment	Exterior	Use	Production quantity		Spec.
Kneader with valve		Dissolution rubber / resin	900kg~1100kg		* Cooling by chiller water * Temperature rising by steam * With rotating shaft
Dissolution tank with single rotating shaft		Dissolution rubber / resin	3,000L	1500kg~2500kg	* Rotating speed switching * Cooling by chiller water * Temperature rising by steam
Dissolution tank with twin rotating shaft		Dissolution rubber / resin	3,500L	2500kg~3300kg	* Rotating speed switching * Cooling by chiller water * Temperature rising by steam
			1,000L	700kg~900kg	* Rotating speed switching * Cooling by chiller water * Temperature rising by steam
Planetary mixer		Dissolution and mixing for material having high viscosity	600L	300kg~500kg	* Rotating speed switching * Evacuating * Cooling by chiller water * Temperature rising by steam
			1,000L	300kg~800kg	* Inverter controll * Evacuating * Cooling by chiller water * Temperature rising by steam
