

## ■ Rubber processing related equipment

Equipment	Exterior	Use	Production quantity		Spec.
Mixing roll		Sheeting rubber	50kg~300kg		* Small amount of prototype can be supported. * Cooling by chiller water
Kneader (Pressurized type)		Kneading rubber	35L	20kg	* Cooling by chiller water
			55L	40kg	* Cooling by chiller water * Temperature rising by steam
			75L	55kg	* Cooling by chiller water
Planetary mixer		Dissolution and mixing for material having high viscosity	600L	300kg~500kg	* Rotating speed switching * Evacuating * Cooling by chiller water * Temperature rising by steam
			1,000L	300kg~800kg	* Inverter controll * Evacuating * Cooling by chiller water * Temperature rising by steam
Pelletizer		Pelletizing rubber	50kg~300kg		* Cooling by chiller water
